Age of "Don'ts" Is Past—Wars and Rumors of War Will Continue Till Right Prevails

Hats Off! The Flag Is Passing By.

All classes from the traveling salesmen, grouped about the hotel, to the small school boys were on the streets of Maryville yesterday morning when the Veterans of Foreign Wars and the American Legion passed with their flags on the way to the memorial services at the First Methodist Episcopal Church and not to exceed a half dozen removed their hats out of respect to the flag. Flag etiquette says, "When the national colors are passing on parade or in review the spectators should, if walking, halt and if sitting, arise and stand at attention and uncovered."

The main auditorium of the First Methodist Episcopal Church was filled to capacity yesterday morning for the memorial services.

Shortly before 11 o'clock the G. A. R's gathered at their headquarters and marched to the church, under the command of M. Goodson, post commander. A little later the Veterans of Foreign Wars and the American Legion gathered at their post headquarters and marched to the church. Then the W. R. C. marched in, fololwed by the DeMoley. The front seats of the middle section of the church were reserved for the twenty G. A. R.'s and most of the section to the south of the middle section was occupied by the other three organizations.

The church choir lead the singing of national songs. The Rev. T. J. Puckett, one of the members of the post, offered prayer and E. M. Houchens read the scripture selection. Dr. O. L. Curl preached the sermon.

Dr. Curl dwelt somewhat in his sermon along the subject of war complimenting highly the soldiers of the American nation who have in years passed laid down their lives for the things that the nation stands for. He complimented especially the G. A. R's for their part in the Civil War in that through saving the Union they really saved the nation and make possible today the happiness and prosperity that we enjoy. He also showed how the world throughout the ages has advanced in the lines of civilization. We have passed the days of "don'ts" and are living in a time when the principle is the important thing in our actions.

"In the early days if one man injured another the rule was for the injured man to kill the other if he could. It was a rule of a life for an injury. Then came Moses, who said a tooth for a tooth—in other words injure the other fellow just as much as he injured you but not any more. Then when Jesus came he established the principle of overcome evil with good. But whatever good was done by our forefathers it must pass through us if it to reach the future generations.

"There will be wars and rumors of wars whenever the right goes forth into the world and these things will continue until right is victorious."

PLENTY OF ROOMS BUT CO-OPERATION IS NEEDED

Chamber of Commerce and Mrs. Alice R. Perrin Have Plenty of Places

Reports have gone around to the effect that students have walked the streets of Maryville today without being able to secure rooms. This is not necessary. All they need to do is to apply to George A. Pickens at the Chamber of Commerce or to Mrs. Alice R. Perrin.

Mr. Pickens gave two reasons why the students were not getting located better, first they do not go directly to Mrs. Perrin or the Chamber of Commerce for lists of rooms, second the people who have rooms listed do not inform these places when their rooms are full so that the filled rooms may be cancelled.

If people will co-operate with these places, all of the students will be located with the least amount of work to the officials and the least amount of walking around for the students. Mr. Pickens says that there is plenty of room for all of the students and if they will get in touch with the Chamber of Commerce or Mrs. Perrin they will soon be located.

MARYVILLE HOMES PRESENT GOOD APPEARANCE

Lawns in Many Cases are Well Mown Many Parkways Kept in Nice Shape

Maryville on Decoration Day will present a good appearance. On a drive or walk through the streets one may see hundreds of homes with the lawns well mowed and the premises in general in the best of shape. Dozens of people are applying fresh coats of paint to their dwellings. In many places people are keeping their parkways mowed just as their lawns and they look fine.

Mayor F. P. Robinson says that the city ordinances provide that the property owners shall now mow their parkways and that steps will be taken later in the summer to see that they do so, where carelessness regarding them has been shown.

Court Adjourned Until Wednesday Morning—Not Many Jurors Were Excused.

The jurors who will determine the fate of Mrs. Bessie Maude Woodard, who is charged with first degree murder in the killing of her husband, Shubael Woodard, were being selected in circuit court today. At press time this afternoon, forty jurors had qualified. Out of this panel will be selected the trial jury of twelve.

The twelve left will be the jury to hear the case. It is expected that a jury will be selected by noon Wednesday.

As Decoration Day is tomorrow, circuit court will adjourn this evening until Wednesday morning.

In qualifying the members of the venire, Prosecuting Attorney McCaffrey asked the question:

"Have you any conscientious scruples which might preclude you from sitting on a jury where the testimony and instructions from the court might warrant punishment of death?"

Several expressed themselves as being opposed to capital punishment. Mr. McCaffrey then mentioned if the testimony and instructions might warrant life imprisonment whether there were any on the panel who might have scruples against such punishment.

Another question asked was:

"Would the fact the defendant is a woman have any influence on you in any way or create any undue sympathy which might tend in making a verdict?"

Nearly every member of the panel said they would give the defendant the same consideration as a man.

L. C. Cook made the challenges for the defense.

Mrs. Woodard was in court with her sister, Mrs. Bud Knox. Her brothers, Will and Charles Partridge, were also in attendance. J. L. Woodard, the father of Shubael Woodard, was present at the court session.

LOCAL PUPILS ARE GOOD IN FIGURES

MARYVILLE PUPILS FIRST IN THIS SECTION.

ROOM FOR IMPROVEMENT

Score of 58.5 Is Lower Than the Standards Set by Educators of the State.

The Maryville schools stand high in arithmetic in both speed and accuracy in comparison with other towns In comparison with the Courtis standard and State standard set for the test they are low.

The report as given for the Maryville public school was:

As far as the tests have been given in Missouri, they seem to indicate that arithmetic is the poorest taught of all the subjects of the curriculum. Pupils are farther from the standard than in the other subjects. Business men will agree, I think with the verdict of the tests. It is estimated that children could double their efficiency in the fundamental operations, if better methods were used in teaching the subject. Missouri schools are so for behind the standard set by the author, that the State Department of Education has set a standard for the schools of 60 per cent, 70 per cent and 80 per cent instead of the authors 100 per cent. For instance, Courtis's standard in addition for the 8th grade is 12 problems in eight minutes 100 per cent correct. The Missouri standard is 12 problems in eight minutes, 80 per correct.

The tests used in the Maryville schools as indicated above were the "Courtis Standard Research Tests." This test has been more widely used than any other test, and is thoroughly standardized. The degree of difficulty of the problems is about the same as that required to solve the problems in business life.

The pupils worked for eight minutes in addition, four minutes in subtraction, six minutes in multiplication and eight minutes in division. The Courtis standard for the typical pupil of each grade if added together would total for addition OP examples. (Mo. standard 7.) The sum of the examples correctly solved by the typical pupil of each grade in Maryville school is 30.9. The sum of the examples these pupils attempted to solve is 68.2 which is almost the Mo. standard. "Attempted to solve" here means that the pupil finished the example, but had the wrong answer. The difficulty here as elsewhere is lack of accuracy. The fault is recognized by most teachers and can be corrected by sufficient drill on the combinations in the lower grades. The remedy seems easy to suggest but difficult to accomplish. The schools so far tested have a per cent of accuracy for addition of 46 subtraction 62, multiplication 49, division 57. The table given below will show the detail score made by Maryville in the various processes and the scores made by other towns.

If we should generalize we should say in comparison with other towns Maryville schools stand high in arithmetic in both speed and accuracy. In

FIGHT TO FINISH ON ANNOUNCED WAGE CUT

Declared to Be "Indefensible" and It Is Thought Will Be Rejected by Vote.

Chicago, May 29.—The railroad laborers are preparing today to fight to a finish on the wage cut announced by the railway labor board. "The decision is indefensible and undoubtedly will be rejected by employes when submitted to a vote," declared Bert Jewell, president of the railway department of the American Federation of Labor. The decision, although affecting only maintenance of the way, is believed to foreshadow cuts along all lines. Cuts from 1 to 5 cents an hour has been established. Labor members of the unit are condemning the cuts. The new wage scale is virtually a return to the February, 1920, scale when the roads were returned to their owners.

Detroit, May 29.—Whether 400,000 railway employes will strike in protest against the pay cut is up to the seventeen national officers of the United brotherhood it was made plain today in the railway shop laborers' meeting here.

437 ENROLLED AT S. T. C. AT 4 O'CLOCK

MANY WAITING AND MORE ARE TO COME.

RUSH BEGAN YESTERDAY

Paying Fees at College—Classes to Begin at Noon Tomorrow—Library Arrangements.

Enrollment at the State Teachers College for the summer term had reached 437 at 4 o'clock this afternoon. No estimate was made by officials as to what the enrollment will be, but the indications are that it will be the largest in the history of the school. Many students were still waiting to be enrolled and it is thought that many have not yet come to Maryville, since they are waiting until after Decoration Day.

The total enrollment last year for the summer term was 642. The largest enrollment on record was in 1916, when 703 were enrolled. The enrollment for the spring term was 397.

The summer rush is here. The students for the summer quarter at the State Teachers College started arriving Friday night and last night the big flood came. The library of the College is crowded today with many types of humanity. Every one wants to enroll at once and the faculty of the College is kept busy trying to untangle the human puzzle that has presented itself.

The students are paying their incidental fee at the College this quarter instead of at the Farmers Trust Company. Murray Welling, College treasurer was stationed in the men's parlor this morning and from 8 o'clock on until noon there was a string of students "a mile long" waiting to pay their fee of $10.

The books which are required for the term are to be rented to each student if they so desire. By paying a book rental fee of $3 the student is entitled to take any book that is required in his course. At the end of the quarter if the books are all returned in good condition the student receives a refund of $2 so that the rental on the books is only $1 for the term. No credit will be given until the books are returned.

There will be one-half day of school tomorrow. The registration will continue until noon and classes will begin immediately after dinner. This will mark the formal opening of the summer quarter. It will end August 4.

In the form of recreation for the summer, the physical education department will offer picnics and parties. There will also be several tennis tournaments under the direction of Miss Mary MacLeod and Russell E. Sprong, of the department of physical education. Mr. Sprong announced this morning that if enough interest was shown there would be a baseball league with games to be played twice a week.

The enrollment this summer is expected to be the largest in the history of the school. It is thought that there will be well over a thousand students enrolled before the end of the week.

The main auditorium of the First Methodist Episcopal Church was filled to capacity yesterday morning for the memorial services.

Shortly before 11 o'clock the G. A. R's gathered at their headquarters and marched to the church, under the command of M. Goodson, post commander. A little later the Veterans of Foreign Wars and the American Legion gathered at their post headquarters and marched to the church. Then the W. R. C. marched in, fololwed by the DeMoley. The front seats of the middle section of the church were reserved for the twenty G. A. R.'s and most of the section to the south of the middle section was occupied by the other three organizations.

The church choir lead the singing of national songs. The Rev. T. J. Puckett, one of the members of the post, offered prayer and E. M. Houchens read the scripture selection. Dr. O. L. Curl preached the sermon.

Dr. Curl dwelt somewhat in his sermon along the subject of war complimenting highly the soldiers of the American nation who have in years passed laid down their lives for the things that the nation stands for. He complimented especially the G. A. R's for their part in the Civil War in that through saving the Union they really saved the nation and make possible today the happiness and prosperity that we enjoy. He also showed how the world throughout the ages has advanced in the lines of civilization. We have passed the days of "don'ts" and are living in a time when the principle is the important thing in our actions.

"In the early days if one man injured another the rule was for the injured man to kill the other if he could. It was a rule of a life for an injury. Then came Moses, who said a tooth for a tooth—in other words injure the other fellow just as much as he injured you but not any more. Then when Jesus came he established the principle of overcome evil with good. But whatever good was done by our forefathers it must pass through us if it to reach the future generations.

"There will be wars and rumors of wars whenever the right goes forth into the world and these things will continue until right is victorious."

Stockmen Appointed Committee Saturday Afternoon for the Purpose of Finding Place

DATES SET FOR YOUNG PEOPLES CONFERENCES

Meeting to be Known as "Set Ups" To Be Held Preceeding Them

Dates were set yesterday by the Young People's Council of the Nodaway County Sunday School Association for the holding of conferences of the various districts in the county. A meeting known as the "set up" meeting is held preceeding the conferences where arrangements are made such as the appointing of committees and making of programs. It has been suggested that the set up meeting for district number 9 be held at Maryville July 13 and the conference to be held July 20.

The set up meeting for district number seven will be held in Ravenwood June 6 and the conference will be June 14. District number three will have a set up meeting at Skidmore June 8 and the conference for that district will be June 13. The set up meeting for district number two has been suggested for July 11 and the conference has been suggested for July 18.

PLENTY OF ROOMS BUT CO-OPERATION IS NEEDED

Chamber of Commerce and Mrs. Alice R. Perrin Have Plenty of Places

Reports have gone around to the effect that students have walked the streets of Maryville today without being able to secure rooms. This is not necessary. All they need to do is to apply to George A. Pickens at the Chamber of Commerce or to Mrs. Alice R. Perrin.

Mr. Pickens gave two reasons why the students were not getting located better, first they do not go directly to Mrs. Perrin or the Chamber of Commerce for lists of rooms, second the people who have rooms listed do not inform these places when their rooms are full so that the filled rooms may be cancelled.

If people will co-operate with these places, all of the students will be located with the least amount of work to the officials and the least amount of walking around for the students. Mr. Pickens says that there is plenty of room for all of the students and if they will get in touch with the Chamber of Commerce or Mrs. Perrin they will soon be located.

MARYVILLE HOMES PRESENT GOOD APPEARANCE

Lawns in Many Cases are Well Mown Many Parkways Kept in Nice Shape

Maryville on Decoration Day will present a good appearance. On a drive or walk through the streets one may see hundreds of homes with the lawns well mowed and the premises in general in the best of shape. Dozens of people are applying fresh coats of paint to their dwellings. In many places people are keeping their parkways mowed just as their lawns and they look fine.

Mayor F. P. Robinson says that the city ordinances provide that the property owners shall now mow their parkways and that steps will be taken later in the summer to see that they do so, where carelessness regarding them has been shown.

PANEL OF 40 WERE QUALIFIED TODAY

JURY TO TRY MRS. WOODARD TO COME FROM THAT PANEL.

JURY READY WEDNESDAY

Court Adjourned Until Wednesday Morning—Not Many Jurors Were Excused.

The jurors who will determine the fate of Mrs. Bessie Maude Woodard, who is charged with first degree murder in the killing of her husband, Shubael Woodard, were being selected in circuit court today. At press time this afternoon, forty jurors had qualified. Out of this panel will be selected the trial jury of twelve.

The following had qualified up to press time: Elba Hagan, Gaylord Dilts, John Sturm, W. I. Gray, Charles O'Howell, Nick Thull, Fred Lyle, W. O. Denton, E. G. Holker, George Manchester, J. G. Out of the forty who have qualified, the state is allowed twenty-four hours to strike out eight men. They will take this time. The defense is required to strike out twenty men. The twelve left will be the jury to hear the case. The state will not strike off their eight until Wednesday morning and after they are through then their list will be given to the defense, who will take off twenty. It is expected that a jury will be selected by noon Wednesday.

As Decoration Day is tomorrow, circuit court will adjourn this evening until Wednesday morning.

In qualifying the members of the venire, Prosecuting Attorney McCaffrey asked the question:

"Have you any conscientious scruples which might preclude you from sitting on a jury where the testimony and instructions from the court might warrant punishment of death?"

Several expressed themselves as being opposed to capital punishment. Mr. McCaffrey then mentioned if the testimony and instructions might warrant life imprisonment whether there were any on the panel who might have scruples against such punishment.

Another question asked was:

"Would the fact the defendant is a woman have any influence on you in any way or create any undue sympathy which might tend in making a verdict?"

Nearly every member of the panel said they would give the defendant the same consideration as a man.

L. C. Cook made the challenges for the defense.

Mrs. Woodard was in court with her sister, Mrs. Bud Knox. Her brothers, Will and Charles Partridge, were also in attendance. J. L. Woodard, the father of Shubael Woodard, was present at the court session.

Prosecuting Attorney McCaffrey is being assisted in the case by W. A. Blagg. Cook & Cummins are representing the defendant.

LOCAL PUPILS ARE GOOD IN FIGURES

MARYVILLE PUPILS FIRST IN THIS SECTION.

ROOM FOR IMPROVEMENT

Score of 58.5 Is Lower Than the Standards Set by Educators of the State.

The Maryville schools stand high in arithmetic in both speed and accuracy in comparison with other towns In comparison with the Courtis standard and State standard set for the test they are low.

The report as given for the Maryville public school was:

As far as the tests have been given in Missouri, they seem to indicate that arithmetic is the poorest taught of all the subjects of the curriculum. Pupils are farther from the standard than in the other subjects. Business men will agree, I think with the verdict of the tests. It is estimated that children could double their efficiency in the fundamental operations, if better methods were used in teaching the subject. Missouri schools are so far behind the standard set by the author, that the State Department of Education has set a standard for the schools of 60 per cent, 70 per cent and 80 per cent instead of the authors 100 per cent. For instance, Courtis's standard in addition for the 8th grade is 12 problems in eight minutes 100 per cent correct. The Missouri standard is 12 problems in eight minutes, 80 per correct.

The tests used in the Maryville schools as indicated above were the "Courtis Standard Research Tests." This test has been more widely used than any other test, and is thoroughly standardized. The degree of difficulty of the problems is about the same as that required to solve the problems in business life.

The pupils worked for eight minutes in addition, four minutes in subtraction, six minutes in multiplication and eight minutes in division. The Courtis standard for the typical pupil of each grade if added together would total for addition OP examples. (Mo. standard 7.) The sum of the examples correctly solved by the typical pupil of each grade in Maryville school is 30.9. The sum of the examples these pupils attempted to solve is 68.2 which is almost the Mo. standard. "Attempted to solve" here means that the pupil finished the example, but had the wrong answer. The difficulty here as elsewhere is lack of accuracy. The fault is recognized by most teachers and can be corrected by sufficient drill on the combinations in the lower grades. The remedy seems easy to suggest but difficult to accomplish. The schools so far tested have a per cent of accuracy for addition of 46 subtraction 62, multiplication 49, division 57. The table given below will show the detail score made by Maryville in the various processes and the scores made by other towns.

If we should generalize we should say in comparison with other towns Maryville schools stand high in arithmetic in both speed and accuracy. In

FIGHT TO FINISH ON ANNOUNCED WAGE CUT

Declared to Be "Indefensible" and It Is Thought Will Be Rejected by Vote.

Chicago, May 29.—The railroad laborers are preparing today to fight to a finish on the wage cut announced by the railway labor board. "The decision is indefensible and undoubtedly will be rejected by employes when submitted to a vote," declared Bert Jewell, president of the railway department of the American Federation of Labor. The decision, although affecting only maintenance of the way, is believed to foreshadow cuts along all lines. Cuts from 1 to 5 cents an hour has been established. Labor members of the unit are condemning the cuts. The new wage scale is virtually a return to the February, 1920, scale when the roads were returned to their owners.

Detroit, May 29.—Whether 400,000 railway employes will strike in protest against the pay cut is up to the seventeen national officers of the United brotherhood it was made plain today in the railway shop laborers' meeting here.

Enrollment at the State Teachers College for the summer term had reached 437 at 4 o'clock this afternoon. No estimate was made by officials as to what the enrollment will be, but the indications are that it will be the largest in the history of the school. Many students were still waiting to be enrolled and it is thought that many have not yet come to Maryville, since they are waiting until after Decoration Day.

The total enrollment last year for the summer term was 642. The largest enrollment on record was in 1916, when 703 were enrolled. The enrollment for the spring term was 397.

The summer rush is here. The students for the summer quarter at the State Teachers College started arriving Friday night and last night the big flood came. The library of the College is crowded today with many types of humanity. Every one wants to enroll at once and the faculty of the College is kept busy trying to untangle the human puzzle that has presented itself.

The students are paying their incidental fee at the College this quarter instead of at the Farmers Trust Company. Murray Welling, College treasurer was stationed in the men's parlor this morning and from 8 o'clock on until noon there was a string of students "a mile long" waiting to pay their fee of $10.

The books which are required for the term are to be rented to each student if they so desire. By paying a book rental fee of $3 the student is entitled to take any book that is required in his course. At the end of the quarter if the books are all returned in good condition the student receives a refund of $2 so that the rental on the books is only $1 for the term. No credit will be given until the books are returned.

There will be one-half day of school tomorrow. The registration will continue until noon and classes will begin immediately after dinner. This will mark the formal opening of the summer quarter. It will end August 4.

In the form of recreation for the summer, the physical education department will offer picnics and parties. There will also be several tennis tournaments under the direction of Miss Mary MacLeod and Russell E. Sprong, of the department of physical education. Mr. Sprong announced this morning that if enough interest was shown there would be a baseball league with games to be played twice a week.

The enrollment this summer is expected to be the largest in the history of the school. It is thought that there will be well over a thousand students enrolled before the end of the week.
